# 1 About these instructions for use

Trade mark rights exist for this document, further information can be found at [viega.com/legal](http://viega.com/legal).

## 1.1 Target groups

The information in this instruction manual is directed at the following groups of people:

- Heating and sanitary professionals and trained personnel
- Drywall builder

It is not permitted for individuals without the abovementioned training or qualification to mount, install and, if required, maintain this product. This restriction does not extend to possible operating instructions.

The installation of Viega products must take place in accordance with the general rules of engineering and the Viega instructions for use.

## 1.2 Labelling of notes

Warning and advisory texts are set aside from the remainder of the text and are labelled with the relevant pictographs.

### **DANGER!**

This symbol warns against possible life-threatening injury.

### **WARNING!**

This symbol warns against possible serious injury.

### **CAUTION!**

This symbol warns against possible injury.

### **NOTICE!**

This symbol warns against possible damage to property.

*Notes give you additional helpful tips.*

### **1.3 About this translated version**

This instruction for use contains important information about the choice of product or system, assembly and commissioning as well as intended use and, if required, maintenance measures. The information about the products, their properties and application technology are based on the current standards in Europe (e. g. EN) and/or in Germany (e. g. DIN/DVGW).

Some passages in the text may refer to technical codes in Europe/Germany. These should serve as recommendations in the absence of corresponding national regulations. The relevant national laws, standards, regulations, directives and other technical provisions take priority over the German/European directives specified in this manual: The information herein is not binding for other countries and regions; as said above, they should be understood as a recommendation.

## 2 Product information

### 2.1 Standards and regulations

The following standards and regulations apply to Germany / Europe. National regulations can be found on the relevant web site of your country at [viega.com/standards](http://viega.com/standards).

#### Regulations from section: Fields of application / Mounting conditions

Scope / Notice	Regulations applicable in Germany
suitable masonry walls	EN 1996-1-1
suitable concreted walls	DIN 1045
suitable support profiles	DIN 18183

#### Regulations from section: Sound protection

Scope / Notice	Regulations applicable in Germany
Fulfilled noise protection requirements	DIN 4109
Fulfilled noise protection requirements	DIN 4109 (additional sheet 2)
Fulfilled noise protection requirements	VDI 4100 SSt I-SSt II

### 2.2 Intended use

#### 2.2.1 Areas of use

The Viega Eco Plus washbasin element is suitable for mounting on masonry wall constructions and support profiles pursuant to the regulations in section  „Regulations from section: Fields of application / Mounting conditions“ on page 6.

## 2.3 Product description

### 2.3.1 Overview

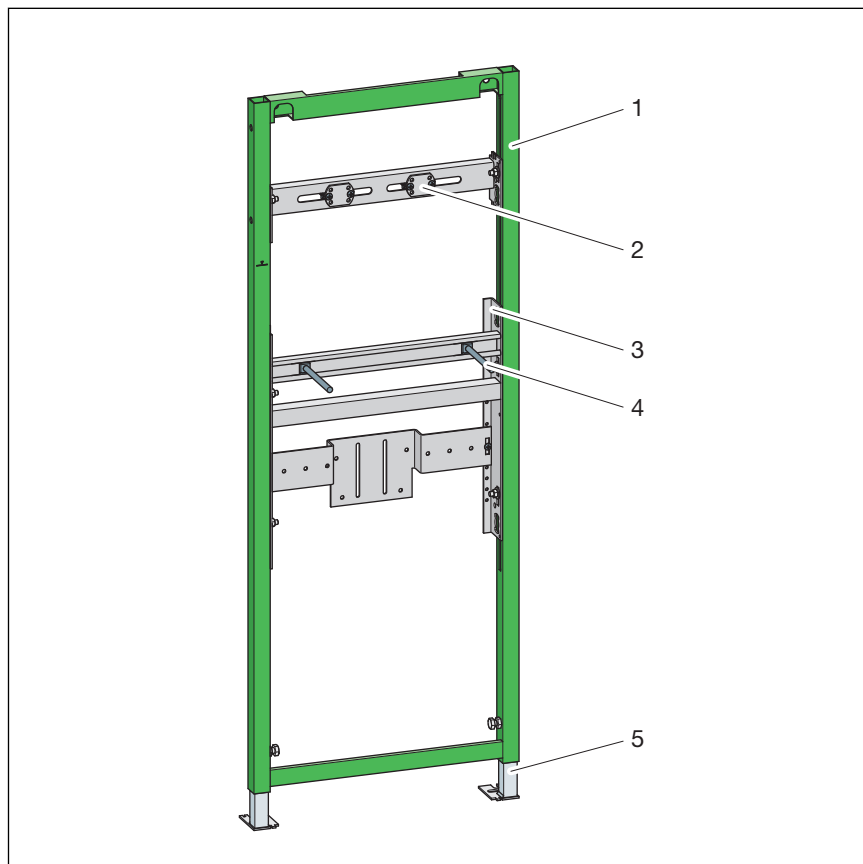

Fig. 1: Components and scope of delivery

- 1 - Viega Eco Plus element
- 2 - connections for wall plates
- 3 - washbasin module
- 4 - threaded bolt
- 5 - adjustable feet

### 2.3.2 Compatible components

The element is compatible with all common washbasin ceramics, even with larger projection (barrier-free).

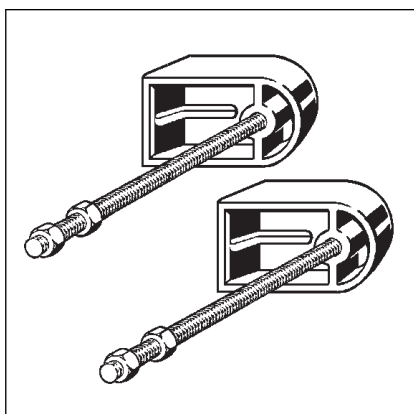

### 2.3.3 Technical data

The product has the following technical data:

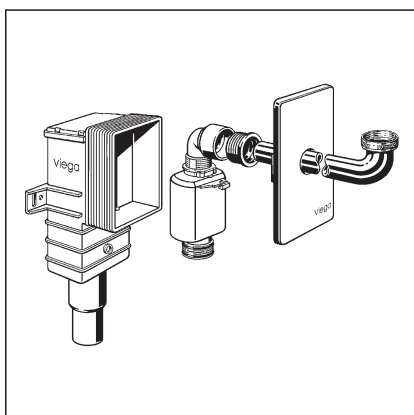

Hole diameter for fixing in wooden frame construction	11 mm
Construction height	1300 mm

## 2.4 Accessories

### Required accessories

The fixing set model 8173 is required to secure.

You require a concealed odour trap.

#### Available models

- Model 5633.1 (chrome-plated cover plate)
- Model 5633.2 (white cover plate)

### For Keramag washbasin models

The suitable drain for the following washbasin models must be ordered from Keramag.

Keramag wash-basin model	Paracelsus	Vitalis	Dejuna
Keramag model No.	521 323	521 323	521 423

### 3 Handling

### 3.1 Assembly information

### 3.1.1 Mounting conditions

## Suitable walls

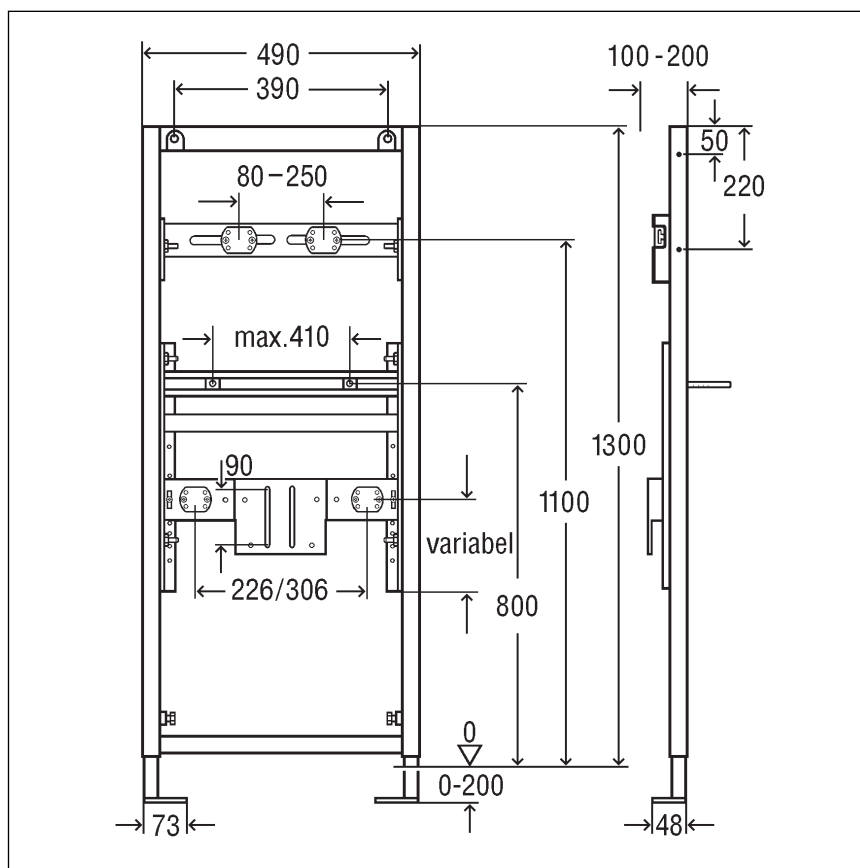

The element is suitable for mounting on masonry wall constructions and support profiles pursuant to the regulations in section 5 „Regulations from section: Fields of application / Mounting conditions“ on page 6.

The element may only be mounted on even wall surfaces.

### Construction height

With the construction height, the marked height of the upper edge of the finished floor must be observed.

### 3.1.2 Installation dimensions

*Fig. 2: Dimensions*

### 3.1.3 Required tools

The following tools are required for mounting the washbasin element:

- drill with 10 mm drill bit
- ratchet with sockets: 13 mm / 17 mm
- fork or ring spanner: 13 mm / 17 mm

## 3.2 Assembly

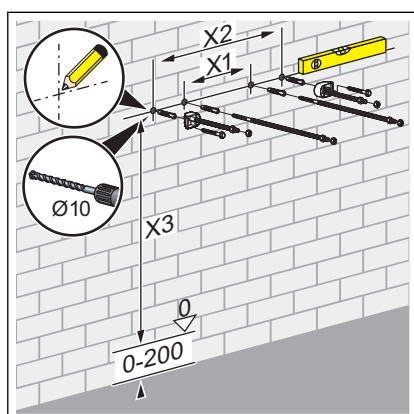

### 3.2.1 Mounting the washbasin element

#### Masonry wall

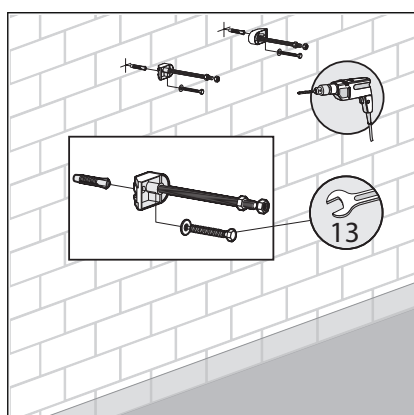

#### **Masonry and concreted walls**

You should use a support bracket (model 8165) when mounting multiple washbasin elements with an interval of > 490 mm. Observe the instructions for use of the support bracket when mounting.

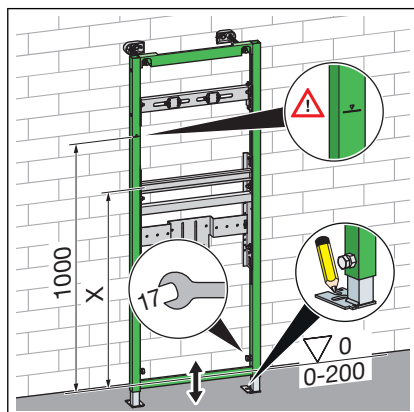

#### ► Determine and mark fixing points.

- X1: 390 mm (model 8180.73)
- X2: 440 mm (model 8173)
- X3: 1280 mm

#### ► Drill holes.

#### ► Mount the fixing set with the fork spanner (size 13).

#### Align height of element.

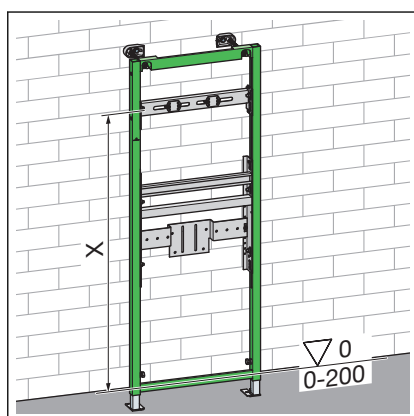

Whilst doing so, observe the markings on the element.

Determine construction height in accordance with the on-site marking of the upper edge of the finished floor.

x = Observe the instructions of the washbasin manufacturer.

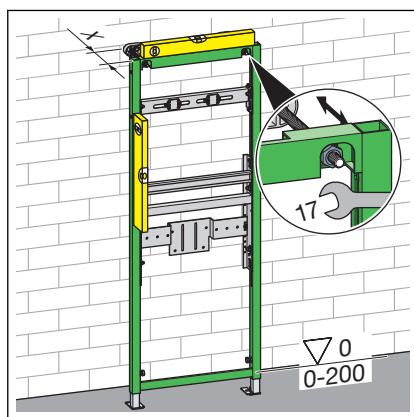

**INFO! The construction height must be determined and adhered to exactly.**

**There are only limited possibilities available to remedy errors made during this assembly step, ↗ „Construction height“ on page 9.**

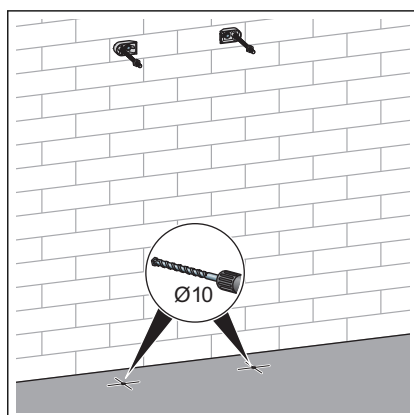

#### Set height of the crossbeam.

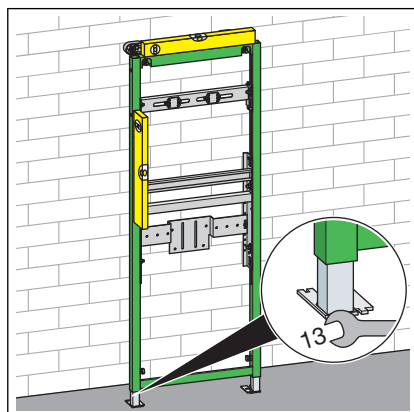

The crossbeam aids the installation of the wall-mounted fitting.

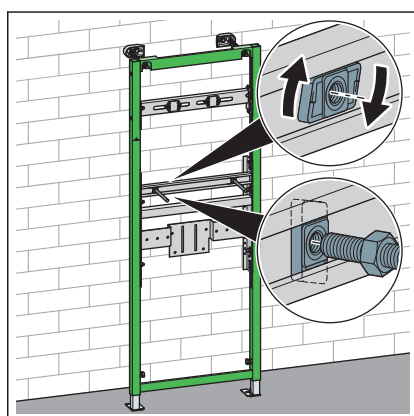

#### Set the installation depth of the pre-wall element with the fork spanner (size 17).

#### Remove washbasin element and drill floor holes.

- Attach washbasin element to the floor using the fork spanner (size 13) and the screws and dowels supplied.

- Mount threaded bolts.  
The fixing interval is dependent on the ceramic. It is normally 280 mm.
- Set connections for wall plates.

- Mount odour trap ↗ „Mounting the odour trap“ on page 12.

## Mounting the odour trap

You require a suitable concealed odour trap ↗ „Required accessories“ on page 8.

*Special drains must be used for washbasin models from Keramag ↗ „For Keramag washbasin models“ on page 8.*

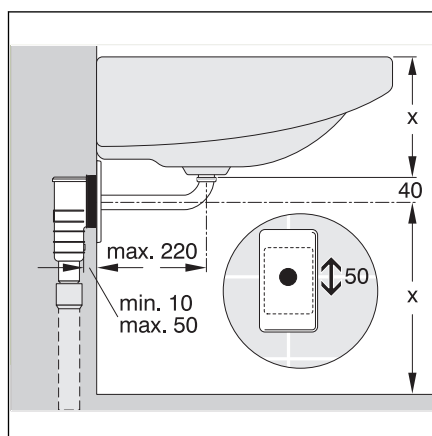

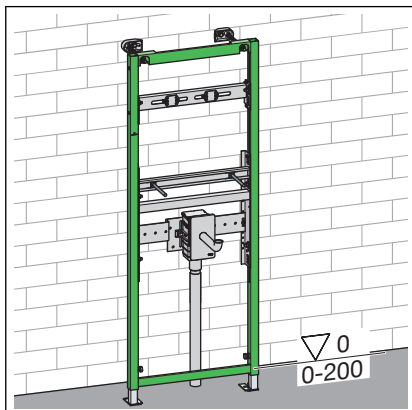

Fig. 3: Installation dimensions

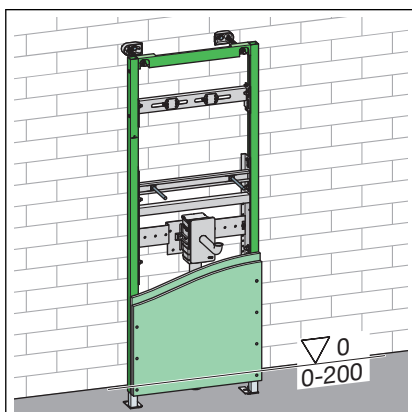

- Mount odour trap in accordance with the odour trap instructions.
- Secure odour trap in the element.

- Clad element.

When mounting on a masonry wall ↗ „Cladding element (when mounting in masonry wall)“ on page 13.

When mounting in the on-site support profile ↗ „Cladding element (when mounting in support profiles)“ on page 15.

### Cladding element (when mounting in masonry wall)

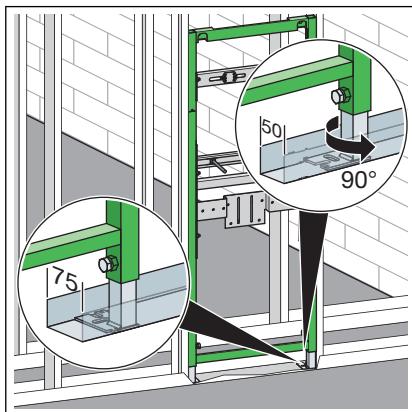

- Double-clad washbasin element (2 x 12.5 mm).

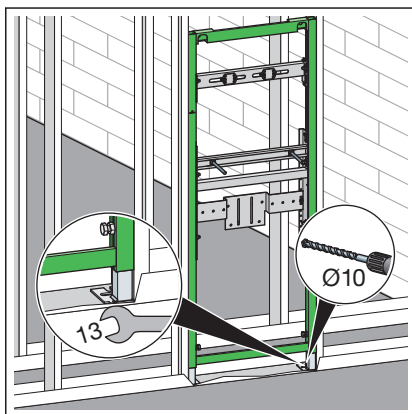

### Mounting in on-site support profile

The washbasin element can be installed in support profiles of 50 mm and 75 mm.

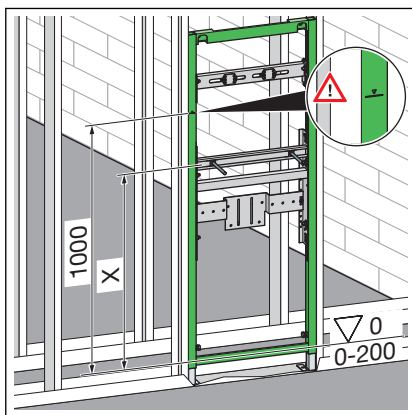

- Determine the fixing points.
- Align element.
- Mount drain elbow and threaded bolts.
- Set connections for wall plates.

- If necessary, adjust the pre-mounted foot depth from 75 mm to 50 mm: Pull out foot and turn by 90°.

- Attach washbasin element to the floor using the fork spanner (size 13) and the screws and dowels supplied.

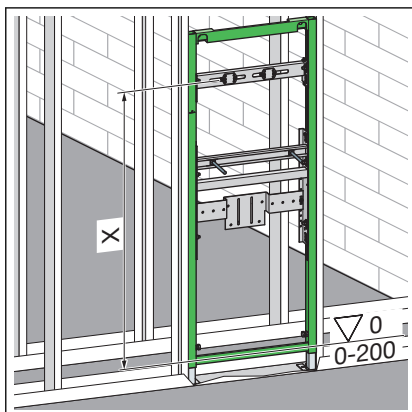

- Determine construction height in accordance with the on-site marking of the upper edge of the finished floor.

- Set washbasin element height by aligning with the marking.

x = Observe the instructions of the washbasin manufacturer.

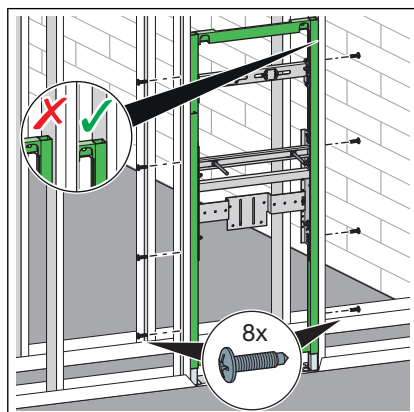

**INFO! The construction height must be determined and adhered to exactly.**

**There are only limited possibilities available to remedy errors made during this assembly step, ☹ „Construction height“ on page 9.**

- Set height of the crossbeam.

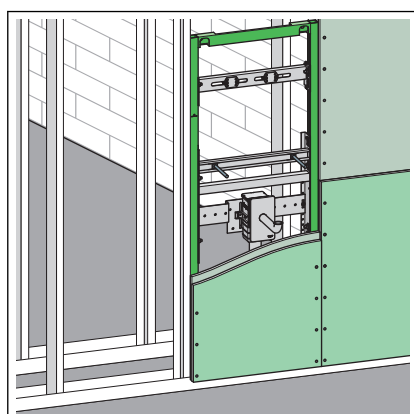

The crossbeam aids the installation of the wall-mounted fitting.

- Screw washbasin element together laterally with the support profiles.

- Connect water line.
- Mount odour trap  „Mounting the odour trap“ on page 12.

### Cladding element (when mounting in support profiles)

- Double-clad washbasin element (2 x 12.5 mm).

## 3.3 Disposal

Separate the product and packaging materials (e. g. paper, metal, plastic or non-ferrous metals) and dispose of in accordance with valid national legal requirements.
